*PhD candidate in control and robotics, emphasis on control and navigation of single or networked multiple autonomous vehicles/mobile robots*

## Education

- Sep. 2016–Present **PhD candidate**, *Institute for Systems and Robotics (ISR), Instituto Superior Tecnico (IST), University of Lisbon, Portugal.*
- April 2015 **M.S. in Electrical and Electronics Engineering**, *University Technology Petronas (UTP), Malaysia.*
- April 2010 **B.S. in Electrical and Electronics Engineering**, *Ho Chi Minh City University Technology (HCMUT), Viet Nam.*

## Background

During the PhD program, I had great opportunities to take the following courses to build my background in control, estimation, optimization, and network science:

At IST Lisbon

- |   |  |
|---|--|
| <b>Nonlinear control</b>                                  | <i>with Antonio Pascoal, at IST Lisbon, 2018</i> |
| <b>Nonlinear optimization</b>                             | <i>with Joao Xavier, at IST Lisbon, 2017</i>     |
| <b>Network science: models and distributed algorithms</b> | <i>with Joao Xavier, at IST Lisbon, 2016</i>     |
| <b>Dynamical system and optimization</b>                  | <i>with Joao Lemos, at IST Lisbon, 2017</i>      |
| <b>Estimation and classification</b>                      | <i>with Jorge Marques, at IST Lisbon, 2017</i>   |

At the European Embedded Control Institute (EECI)

- |  |   |
|--|---|
| <b>Distributed control and computation</b> | <i>with Stephen Morse, at TU Berlin, 2017</i>     |
| <b>Nonlinear system</b>                    | <i>with Hassan Khalil, at Paris Supélec, 2018</i> |
| <b>Nonlinear model predictive control</b>  | <i>with Frank Allgower, at IIT Madras, 2017</i>   |

## Research experience

2016–Present **PhD-Researcher**, *ISR/IST, Lisbon, Portugal and AMOS center, NTNU, Trondheim, Norway.*  
Working on several EU projects such as MARINEUAS, WIMUST, with focus on navigation, guidance and control of multiple autonomous vehicles.

- Cooperative path following of multiple autonomous vehicles. Develop a theoretical framework and implement real tests with marine autonomous vehicles developed by DSOR lab, ISR/IST Lisbon.
- Develop a framework for consensus/coordination/synchronization of a nonlinear multi agent system with event triggered control and communications.
- Develop an MPC framework for simultaneous target localization and tracking for the case of multiple targets and multiple trackers.
- Develop a cooperative distributed estimation and control strategy for range-based simultaneous target localization and pursuit.

Software: *Matlab/ROS/Python/C++*

Hardware: *MEDUSA underwater robots*

- 2012–2015 **PG-Researcher**, *EE department, UTP*.  
Modelling, system identification and control of process plants.
- Develop black-box models (ARX, neuro-fuzzy) for a lab-scaled air pilot plant.
  - Develop control strategies (PID/MPC) for the air pilot plant. Implement the controllers with real air pilot plant.
- Tools: Matlab / PCI Card interface/ Gaseous pilot plant*
- 2010–2012 **Research engineer**, *Schneider Electric automation design center, HCMUT*.  
Study and develop a redundancy solution for a distributed industrial network control system.
- Develop a solution for Programmable Logic Controller (PLC) redundancy based on Unity Pro software and Premium PLC of Schneider Electric
  - Integrate the PLC redundancy solution with SCADA Citect redundancy
- Software: SCADA Citect, Several PLC IDEs*  
*Hardware: PLC Schneider, PLC Siemen, Remote I/O, Inverter, Industrial network*

## Teaching experience

- 2018 **Teaching assistant**, *IST Lisbon*.  
Ph.D courses: Nonlinear Optimization with Joao Xavier, Spring semester.
- 2013-2015 **Teaching assistant and lab instructor**, *UTP*.  
Undergraduate courses: Plant Process Control System, Industrial Automation Control System, and Modern Control Engineering.
- 2010-2012 **Lab instructor**, *Automatic control department, HCMUT*.  
Undergraduate courses: Industrial Network, Introduction to Control Engineering.
- 2010-2012 **Trainer**, *Schneider Electric Automation Design Center*.  
Industrial courses for Schneider's customers in Vietnam and Cambodia: PLC Twido, PLC Premium, SCADA Citect, Unity Pro, Industrial Network (Modbus TCP/IP, Modbus RTU, CANopen).

## Software experience

MATLAB/Simulink, C++, Python, ROS, Linux, Git, Latex

## Hand-on experience

Microcontrollers, Programmable Logic Controller (PLC), Inverter, PCI cards, HMI, industrial network (CAN, Modbus RTU, Modbus TCP/IP)

## Awards/Honors

- 2016-2018 Marie-Curie Early Stage Researcher Fellowship, awarded by the *EU commission*.
- 2013-2015 Master scholarship, awarded by *UTP*.
- 2011 First runner up for a "control and automation solution for saving energy in university campus", awarded by *Schneider Electric of South-East Asia*.
- 2011-2012 Exemplary young lecturer, awarded by *HCMUT*.
- 2005 Third place in selection of national gifted student in Physics, awarded by the *Ministry of Education of Viet Nam*.

## Languages

- Vietnamese **Native**  
English **Proficient**  
Portuguese **Basic**

## Selected publications

### Journals:
